## Under New Ownership & Management

# Ventilation for Underground Mines & Tunneling Systems

FRAS\* Ventilation Tubes & Fittings | FRAS\* Venturi | Cable Hanging Straps | Tube Repairs

\*Fire Retardant and Anti-static

## FRAS\* Ventilation Tubes & Fittings Benefits -

- ~ Full traceability on every component fabricated
- ~ Reduced weight of tubes, reducing risk of back injury
- ~ Unique tube construction reduces the risk of injury from sharp shards
- ~ Ribbed Tube construction increases strength and stiffness while minimising weight
- ~ Tube & Fittings are constructed to the highest possible durability
- ~ Tubes are able to be repaired, increasing the lifespan of the product

## FRAS\* Venturi Benefits -

- ~ Ideal for safely and efficiently removing dust & fumes
- ~ No moving parts - ideal for rugged mine conditions
- ~ Quality Construction - no maintenance required

All work Completed is in Accordance with ISO -9001
